
Write Your Code

src/index.js

```
import bar from './bar';

bar();
```

src/bar.js

```
export default function bar() {
  //
}
```

Bundle It

Text

Without config or provide custom **webpack.config.js**

```
const path = require('path');
```

```
module.exports = {
  entry: './src/index.js',  Entry
  output: {
    path: path.resolve(__dirname, 'dist'),  output folder
    filename: 'bundle.js'    output file
  }
};
```

page.html

```
<!doctype html>
<html>
  <head>
    ...
  </head>
  <body>
    ...                    Use the output js
    <script src="dist/bundle.js"></script>
  </body>
</html>
```

Then run `webpack` on the command-line to create `bundle.js`.

Awesome isn't it? Let's dive in!

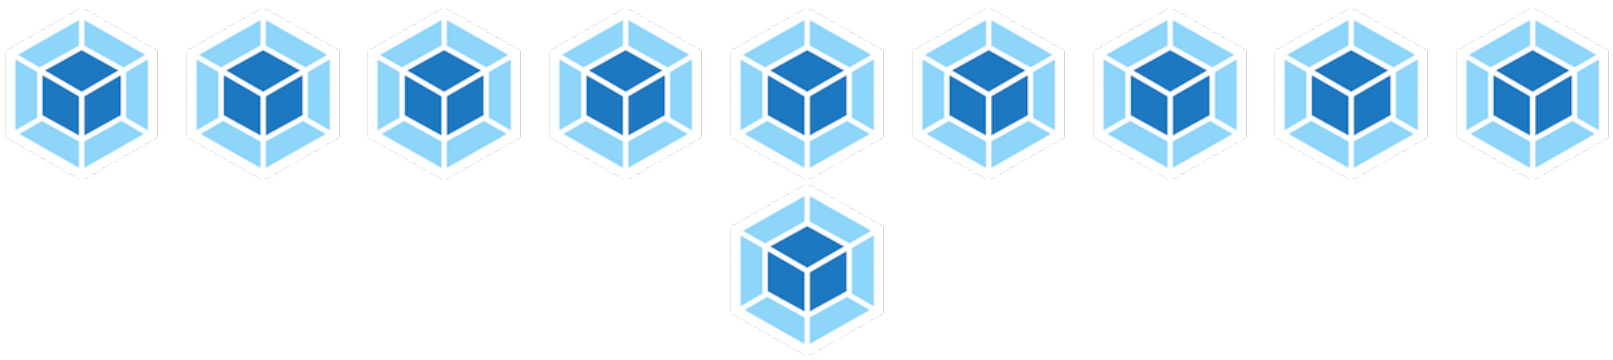
Get Started quickly in our **Guides** section, or dig into the **Concepts** section for more high-level information on the core notions behind webpack.

Support the Team

Through contributions, donations, and sponsorship, you allow webpack to thrive. Your donations directly support office hours, continued enhancements, and most importantly, great documentation and learning material!

Latest Sponsors

The following persons/organizations made their first donation in the last 14 days (limited to the top 10).



BECOME A SPONSOR

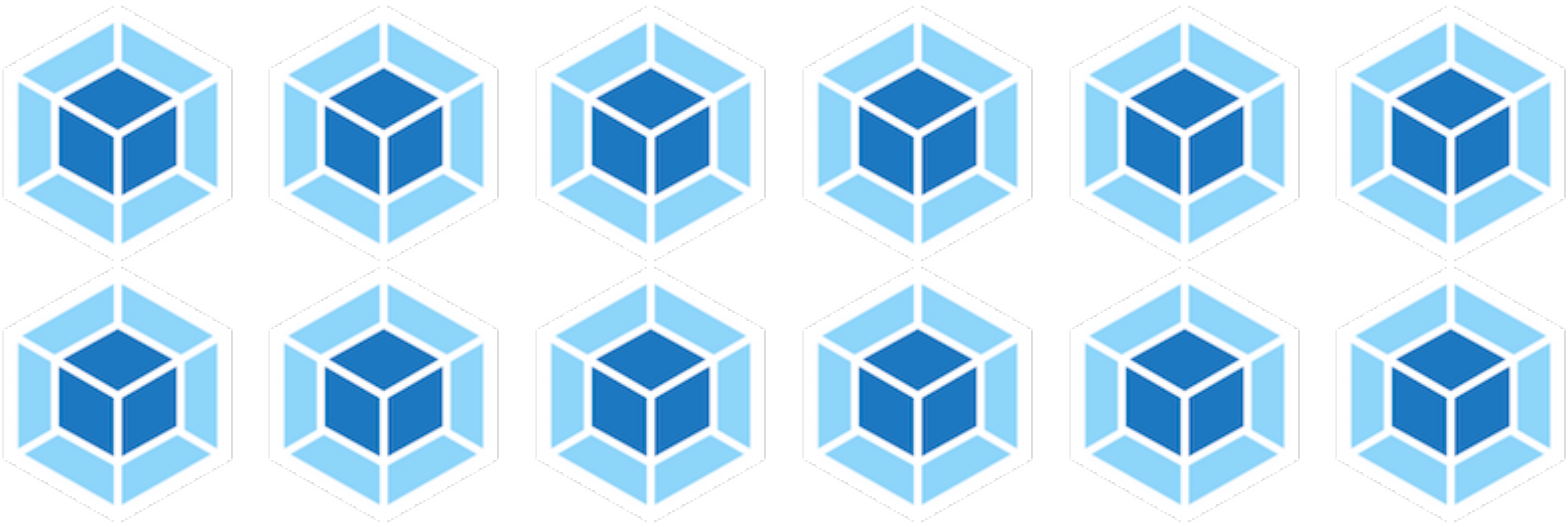
Platinum Sponsors

Platinum Sponsors are those who have pledged $50,000 or more to webpack.

BECOME A SPONSOR

Gold Sponsors

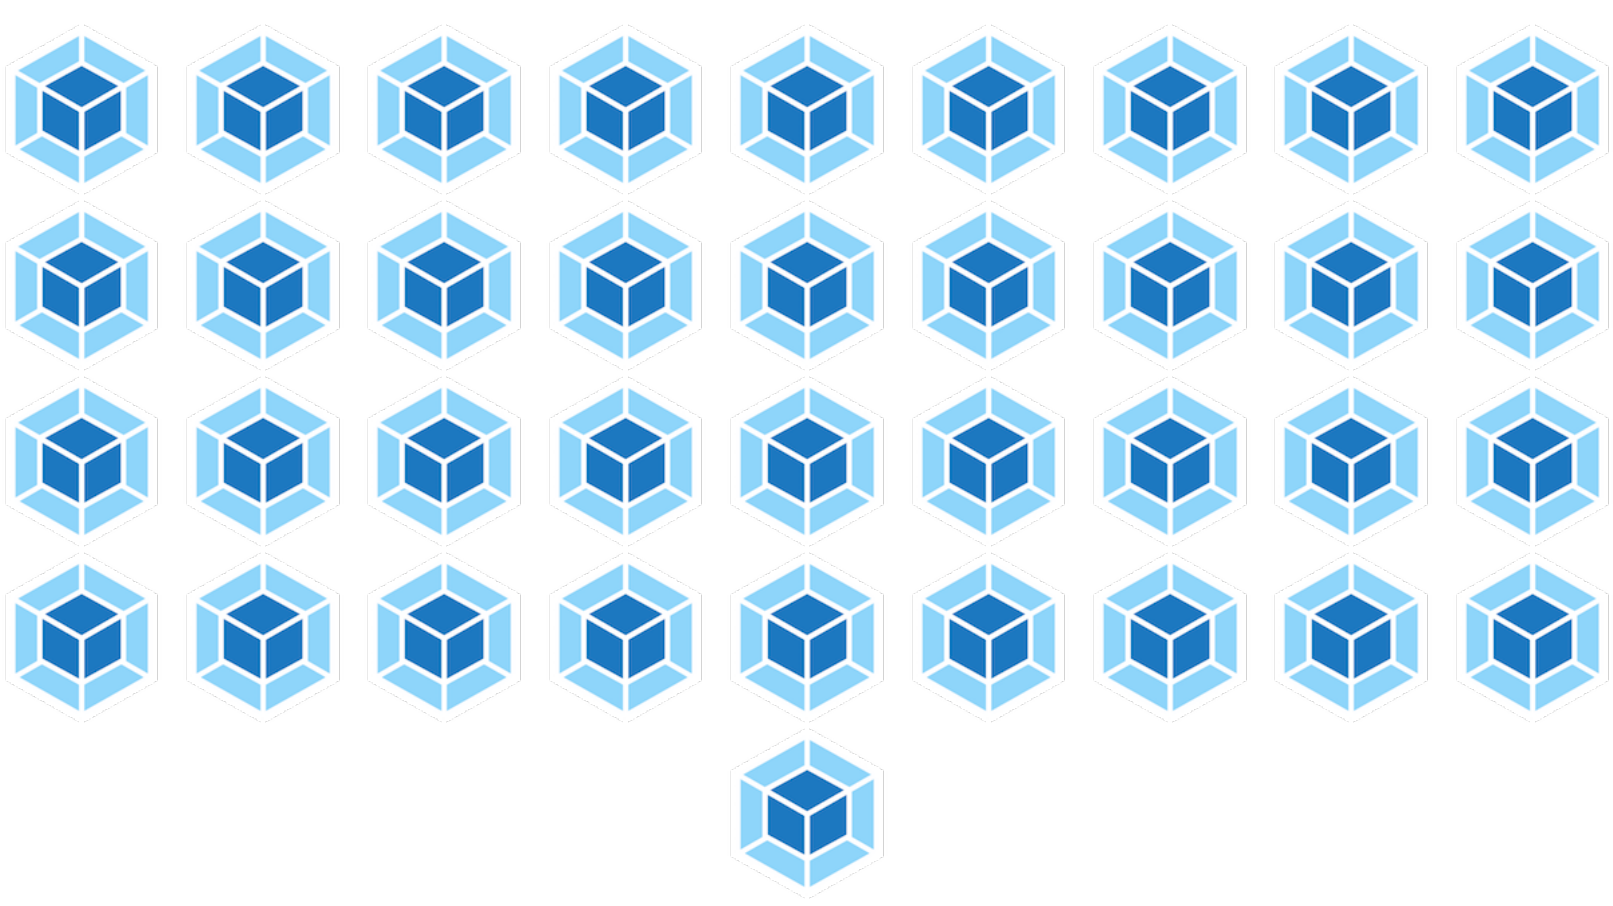
Gold Sponsors are those who have pledged $10,000 to $50,000 to webpack.



BECOME A SPONSOR

Silver Sponsors

Silver Sponsors are those who have pledged $2,000 to $10,000 to webpack.



BECOME A SPONSOR

Bronze Sponsors

Bronze Sponsors are those who have pledged $200 to $2,000 to webpack.
